

CALLING ALL ADVOCATES

THE WILD FREE-ROAMING HORSES AND BURROS ACT
was signed into law on December 15, 1971

Are we going to let this 40 year anniversary fade away without shining a light on our wild horses and burros? It's time to honor the work of Wild Horse Annie. It's also the perfect opportunity to bring the plight of America's wild horses and burros into the public eye once again.

We are calling on all advocates to organize a candlelight vigil in the city nearest you on Thursday, December 15th. Let's all come together with a theme of **"Keep their light shining"**. Bring some candles, coffee, hot chocolate, and most important of all, bring your friends and neighbors. Whether small or large, your group can make a difference.

Now is the time to show our solidarity and make it clear that
**We are here - We are united - We are not going
away**

Those of you who choose to organize a candlelight vigil, please log onto to our facebook page. ["Keep Their Light Shining"](#). Tell us your city and keep us updated as to how many will attend your function.
